**Additional Information:**

Most materials, inks, proofing papers, tools etc will be provided, however if you are wanting to print on edition paper you will need to bring your own. You are also able to purchase Fabriano Rosaspina 220gsm 700 x 1000mm edition paper here at TKPT for \$10 per sheet.

Coffee, tea, sugar and milk are provided. We have a microwave for re-heating food.

We have aprons here however it is a messy process so I recommend you wear old clothes. In summer it gets very hot and in winter it gets very cold so you may want to dress for that. It can get very wet outside when we are screen printing so gumboots or old shoes are great! If you have any further questions please don't hesitate to contact us.

We look forward to meeting you!
